

Ultra-GutterGuard Plus Installation Instructions

Part# 9151, 9158, 9154, 9159

1. Remove GutterGuard Plus grids and sleeves from box (6-foot unit shown).

2. Snap off stabilizer arms (2-pieces per arm). Set aside for step 5.

3. Slide grids together.

4. Slide assembled grids into outer sleeve.

5. Install stabilizer arms (correct side is noted on grids)
6. Seal velcro

7. Insert 7 lb. minimum weight into sleeve in back of unit. (Optional weight available - p/n 9148)
8. Slide sleeve into curb throat, holding unit tight to curb face. (leave 12" overlap on each end of curb opening)
9. Tie-back straps can be used for additional anchoring if desired.
10. Clean unit after each wet weather event.
