Part# 9219 / 9358	Oil & Sediment Plus Model, 1-Pack	Part# 9378	Recycled Model, 1-Pack
Part# 9220	Oil & Sediment Plus Model, 10-Pack	Part# 9379	Recycled, 10-Pack

INSTALLATION AND MAINTENANCE INSTRUCTIONS

Installation:

1. Remove catch basin grating
2. Clean dirt and debris from grating ledge
3. Insert DrainGuard
4. Reinstall grate. To insure maximum effectiveness, DrainGuard skirt should be secured (pinched) between grating and ledge.
5. Cut the excess fabric off with a blade or knife if desired.

Installation with optional Ultra-DrainGuard Retainers

- Follow steps 1 and 2 above. Insert Retainer through handling straps of DrainGuard. (Each Retainer should be holding two straps).
- Insert DrainGuard, placing Retainers across basin opening so that flat plates lay on grating ledge.
- Follow steps 4 and 5 above.

Maintenance and disposal:

1. The Ultra-DrainGuard filters are designed to be used for 3 to 6 months under normal conditions. Where heavy contamination is present the unit will have a reduced life expectancy. The accumulation of sediment can be determined by probing with a measuring stick or with the optional PopUp Capacity Indicator (p/n 9236). When the unit has collected about 6 inches of sediment it is recommended that it be replaced. The unit should also be replaced if free oil can be seen floating and is not being absorbed. The Ultra-DrainGuards should be inspected on a regular basis.
2. Dispose of unit in accordance with applicable Federal, state and local environmental laws and regulations. The user is solely responsible for compliance with maintenance and disposal laws and regulations. The manufacturer or seller assumes no responsibility for proper or improper maintenance or disposal.
